

FLOYD JUSTIN SEQUEIRA

Full Stack Developer

+91 7619646221 | Mangaluru, Karnataka | floydsequeira75@gmail.com | [LinkedIn](#) | [Github](#)

CAREER OBJECTIVE

Aspiring Full Stack Developer with hands-on experience in React.js, Node.js, Next.js, REST API and AI-powered applications. Eager to build scalable applications while delivering impactful solutions and continuously advancing technical expertise.

TECHNICAL SKILLS

- **Languages:** Python, Java, SQL, HTML, CSS, JavaScript, Dart
- **Frameworks & Libraries:** React.js, Next.js, NestJS, Node.js, Express.js, Flutter
- **AI & Real-Time:** LLM, Groq AI, Socket.IO
- **Databases:** MySQL, MongoDB
- **Developer Tools:** Git, Docker, VS Code, Postman, Figma

WORK EXPERIENCE

Full Stack Developer Intern at Mindstack Technologies, Mangaluru, India | Dec 2025 – Apr 2026

- Developed UIs for HealthConnect, Maxwealth, ASEAN Connect, and Torus Admin using React.js and Next.js.
- Built REST APIs and backend services using Node.js, NestJS, and MySQL, with application testing.
- Integrated frontend components with backend APIs to ensure seamless data flow.
- Implemented authentication and authorization features for secure user access.

Software Development Intern at Ukshati Technologies Private Limited, Mangaluru, India | Mar 2025 – May 2025

- Developed responsive user interfaces using React.js with dynamic components and state management.
- Developed reusable React components to improve code maintainability.
- Built backend services using Node.js and MySQL, and deployed applications using Docker.
- Integrated frontend applications with REST APIs for smooth functionality.
- Worked with Git for version control and collaborative development workflows.

OTHER SKILLS

Industry Knowledge:

Full Stack Development, Frontend Development, Backend Development, Responsive Web Development, API Integration, AI-Powered Applications, LLM Integration, Real-Time Communication, Authentication & Authorization, Database Management, Object-Oriented Programming, Software Development Life Cycle (SDLC), Containerization, Cross-Platform Mobile Development, Computer Vision, Deep Learning, Application Testing, Version Control

Soft Skills:

Problem Solving, Analytical Thinking, Attention to Detail, Team Collaboration, Adaptability, Time Management, Communication, Quick Learning, Critical Thinking, Debugging, Documentation

PROJECTS

AI-Powered Knowledge Chatbot with Real-Time Admin Monitoring

Tech Stack: HTML5, JavaScript, React.js, Tailwind CSS, Node.js, Express.js, MySQL, Socket.IO, LLM, Groq AI

- Developed an AI-powered knowledge base chatbot using an LLM through Groq AI to answer employee queries using company KB articles.
- Implemented Admin and Employee dashboards with authentication, role-based access, KB CRUD, and persistent chat sessions.
- Built real-time employee monitoring using Socket.IO with online/offline tracking, live messages, and chat monitoring.

Inventory Management System

Tech Stack: React.js, Express.js, MySQL, Tailwind CSS, Postman

- Developed RESTful API features for quote generation, search, and customer management.
- Implemented search, edit, and PDF view/download features using React.js, Express.js, and MySQL.

Vehicle Classification and Detection using Neural Networks

Tech Stack: Python, Keras, TensorFlow Lite, Flutter, Dart, Supabase, YOLO (v9/v11)

- Designed YOLO-based models for real-time vehicle detection across KITTI, UA-DETRAC, and IRUVD datasets.
- Developed a Flutter application with TensorFlow Lite for real-time emergency and regular vehicle classification.

EDUCATION

- **Bachelor of Engineering in Computer Science & Engineering** | St. Joseph Engineering College | CGPA: 8.74 | 2021 – 2025
- **State Board XII (PCMB)** | St. Aloysius PU College | 92% | 2019 – 2021
